Public participation process

Includes the following documents:

Notification
Authorities and neighbours
- Letter to the authorities
- Letter to the interested & affected parties
- E-mail notice sent to the landowner and neighbours on 25 October 2017
- E-mail notice sent to authorities on 25 October 2017
- Proof letters posted to authorities and neighbours on 25 October 2017

Newspaper notice
- Notice placed in the Weslander of 25 October 2017

Site notice
- Photographs of site notice placed on 24 October 2017

Information provided to interested and affected parties
- Notice
- Background Information Document (BID)

Landowner consent
- Consent dated 4 September 2017 from the land owner (Eye of the Public Advertising CC)

Correspondence from neighbours and other interested & affected parties
- E-mail dated 25 October 2017 from West Coast Fossil Park;
- E-mail dated 26 October 2017 from Adelaide Ruiters Mining & Exploration (Pty) Ltd;
- E-mail dated 27 November 2017 from West Coast Bird Club.

Correspondence from Authorities
- Heritage Western Cape letter dated 6 December 2017.

Register of Interested and Affected Parties
1 INTRODUCTION

This Public Participation Report has been compiled for an application for a mining permit in terms of the Mineral and Petroleum Resources Development Act (Act No.28 of 2004) ("MRPDA") as well as for an application for environmental authorisation in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) ("NEMA").

Amathemba Environmental Management Consulting CC has been appointed by Tip Trans Resources (Pty) Ltd to conduct the required public participation process for the NEMA process.

The applications for a mining permit and environmental authorisation were submitted on 24 January 2018. The section 27 application for a mining permit was accepted by the Department of Mineral Resources (DMR) on 2 February 2018. The DMR also acknowledged receipt of the application for environmental authorisation in terms of NEMA on 2 February 2018.

This public participation process has been conducted to comply with all relevant requirements as described in Regulations 39 to 44 of the 2014, EIA Regulations.

This report includes a description of the process used to notify interested and affected parties, and the comments received from interested and affected parties.

Copies of notices and relevant correspondence are included in Annexure A.

2 NOTIFICATION

The landowner (Mr G Stigling of Eye of the Public Advertising CC) provided written consent for the applications and the proposed activities on 4 September 2017.

Notices and a Background Information Document (BID) were e-mailed on 25 October 2017 to the authorities, the landowner and neighbours.

Hard copies of the notice and BID were posted to the authorities and the neighbours on 25 October 2017.

A bilingual notice (English and Afrikaans) was placed in the Weslander of 25 October 2017.

A site notice was placed at the entrance to the site on 24 October 2017.
3 ISSUES AND CONCERNS RAISED

All relevant documentation related to the public participation process including the register of interested and affected parties and all written comments received are attached to this report in Annexure A.

The issues and concerns that have been raised during the public participation process to date as well as the responses to these issues are summarised in Table 1, below.

## 4 CONCLUSIONS

It is concluded that:

- Tip Trans Resources (Pty) Ltd has complied with the requirements of Regulation 41 of the EIA Regulations, 2014.
- All additional comments which are received during the 30 day consultation period required for the Basic Assessment Report and EMPr will be submitted to the Competent Authority.
ANNEXURE A:

Public participation process

Includes the following documents:

Notification

Authorities and neighbours
- Letter to the authorities
- Letter to the interested & affected parties
- E-mail notice sent to the landowner and neighbours on 25 October 2017
- E-mail notice sent to authorities on 25 October 2017
- Proof letters posted to authorities and neighbours on 25 October 2017

Newspaper notice

- Photographs of site notice placed on 24 October 2017

Information provided to interested and affected parties
- Notice
- Background Information Document (BID)
Dear Authorities,

Proposed application for a mining permit on the Remainder of the farm Langeberg 188, Vredenburg District

The purpose of this e-mail is to notify you about a proposed application for a mining permit and environmental authorisation by Tip Trans Resources (Pty) Ltd on the Remainder of the farm Langeberg 188, Vredenburg District.

In terms of the 2014 EIA Regulations (as amended) you have automatically been registered as an interested and affected party and will be provided with a 30 day period to comment on the Basic Assessment Report once it is available.

Attached is the notice and a copy of the Background Information Document.

If you have any initial comments I would appreciate it if you could send them to me on or before 27 November 2017.

Yours faithfully,

Barry Wiesner
Cell: 082 463 6221
FAX: 086 672 7238

Tip Trans Resources (Pty) Ltd: Proposed sand and calcrete mine on the Remainder of the farm Langeberg 188, located in the Vredenburg Magisterial District

This Background Information Document (BID) has been prepared as part of the public participation process required by the Environmental Impact Assessment Regulations, 2014 which were published in terms of the National Environmental Management Act, 1998 Act 107 of 1998) (“NEMA”).

**Applicant:** Tip Trans Resources (Pty) Ltd

**Location:** Anyskop Farm which is on the Remainder of the farm Langeberg 188, Vredenburg District is, 2.5km east of the R27 (West Coast Road). Access to the site is obtained from a private road leading directly from the R27.

**Description of the applicable listed activities:**

<table>
<thead>
<tr>
<th>Listing Notice</th>
<th>Activity no.</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>LN1</td>
<td>21</td>
<td>Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the MPRDA, including - (a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource, or (b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.</td>
</tr>
<tr>
<td>LN1</td>
<td>22</td>
<td>The decommissioning of any activity requiring - (i) a closure certificate in terms of section 43 of the MPRDA; or (ii) a mining permit where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.</td>
</tr>
<tr>
<td>LN1</td>
<td>28</td>
<td>Commercial or industrial developments where such land was used for agriculture on or after 01 April 1998 and where such development: (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.</td>
</tr>
</tbody>
</table>
Environmental Impact Assessment Process:
Basic assessment must be applied to this application and therefore a basic assessment report, inclusive of specialist reports and an Environmental Management Programme, which has been subjected to a public participation process of at least 30 days, must be submitted to the Competent Authority (i.e. the Department of Mineral Resources or “DMR”).

Extent and duration of the activities:
The proposed mining permit area is 5.0 hectares in size. The site is situated on transformed land on the Remainder of farm Langeberg 188, Registration division of Vredenberg. The land is currently used for grazing purposes.

The maximum estimated duration of the proposed mining activities is 5 years, although it could be less than this depending on the demand for the material.

Background & proposed mining method:
A number of road improvement or upgrading projects are planned, or are in progress, in the Saldanha Bay Municipal area.

Tip Trans Resources (Pty) Ltd proposes to obtain a mining permit for sand and for weathered calcrete. The proposed use of the sand is as a filling material and the proposed use of the weathered calcrete is as G5 or G6 material for road construction projects.

The site is located on transformed farm land (see Figure 2).

The proposed mining sequence is as follows:
- The mining permit area will be divided into 8 mining blocks. The mining blocks will vary in extent from 0.5 hectares to 0.8 hectares.
- Only one block at a time will be mined.
- Overburden clearing and stockpiling of topsoil.
- Loading of sand and weathered calcrete into trucks using an excavator.
- The average estimated depth of the proposed excavation is approximately 3 metres below surface.
- Recording volumes in trucks
- Final rehabilitation of slopes to not more than 1:3. Levelling the final floor, replacing topsoil, stabilising the soil surface and rehabilitating the area so that it can continue to be used for agricultural purposes

A locality map and a site plan are shown in Figures 1 and 2.

Potential environmental impacts of the proposed mining activities:
Potential environmental impacts associated with the proposed mining activities are listed in the following table:

<table>
<thead>
<tr>
<th>Aspect</th>
<th>Potential Impacts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Biodiversity</td>
<td>The proposed mining permit area is situated on transformed farm land and will have no impact on natural vegetation. Smaller animals will move away when mining operations are in progress.</td>
</tr>
<tr>
<td>Water resources</td>
<td>The proposed mine will have no significant impact on surface water.</td>
</tr>
<tr>
<td></td>
<td>Initial information suggests that the site may be located above the Langebaan Road Aquifer. However, the proposed mining is targeting the near surface superficial material, which is well above the groundwater level.</td>
</tr>
<tr>
<td>Aspect</td>
<td>Potential Impacts</td>
</tr>
<tr>
<td>------------------------------</td>
<td>---------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Soil and agricultural potential</td>
<td>When the sand has been removed the area will be rehabilitated to that it can continue to be used for agricultural purposes (i.e. grazing).</td>
</tr>
<tr>
<td>Noise and dust</td>
<td>An excavator will be used to excavate the material and to load trucks. Noise and dust impacts will be largely restricted to the site. The mine will operate during working hours only.</td>
</tr>
<tr>
<td>Socio-economic</td>
<td>The proposed mine will not have a negative impact on any agricultural activity on the property or of the surrounding farms. The mine will provide employment and the aim is to use the sand and weathered calcrete for various road construction or upgrading projects in the Saldanha Bay municipal area.</td>
</tr>
<tr>
<td>Cultural and heritage resources</td>
<td>There are no old buildings located within the mining permit area. However the site is located south of the West Coast Fossil Park, so it is possible that fossil material may be found.</td>
</tr>
</tbody>
</table>

**Specialist studies:**

At this stage it is anticipated that the following specialist studies may be required to assess the impacts of the proposed project:

**Heritage**
A heritage specialist to compile the required ‘Notice of Intent’ or NID that will be submitted to Heritage Western Cape.

**Groundwater**
A specialist hydrogeologist to assess the potential impact of the project on groundwater.

**Invitation to Interested and Affected Parties:**
Contact the environmental assessment practitioner (EAP) if you require any further information about the application, the proposed activity or if you wish to register as an interested and affected party.

Interested and affected parties are invited to provide information as to how their interests (whether it be socio-economic, cultural, heritage or environmental) will be affected by the proposed small-scale mining project.

All registered interested and affected parties will be provided with an opportunity to comment on the Basic Assessment Report and Environmental Management Programme before these are submitted to the Competent Authority (i.e. the DMR).

Landowner consent

- Consent dated 4 September 2017 from the land owner (Eye of the Public Advertising CC)
Eye of the Public Advertising CC
PO Box 596
Sanlamhof
7532

Company Registration Number: 2007/005202/23

RESOLUTION PASSED AT A MEETING OF THE MEMBERS OF EYE OF THE PUBLIC ADVERTISING CC

HELD AT: Anyskop Farm, Vredenburg

ON THE: 4th September 2017

IT WAS RECORDED THAT:

• Eye of the Public Advertising CC is the registered owner of the Remainder of the farm Langeberg 188, Malmesbury Registration Division (held under Title Deed No: T57356/2016).

• Eye of the Public Advertising CC Ltd is aware that Tip Trans Resources (Pty) Ltd plans to submit an application to the Department of Mineral Resources (DMR) for a mining permit over a five hectare area on the Remainder of the farm Langeberg 188.

IT WAS THEREFORE RESOLVED THAT:

• Eye of the Public Advertising CC provides consent to Tip Trans Resources (Pty) Ltd to submit an application for a mining permit to the Department of Mineral Resources (DMR) and to apply for any other regulatory consent or permission required for the proposed mining operation.

Correspondence from Authorities

- Heritage Western Cape letter dated 6 December 2017.
RESPONSE TO NOTIFICATION OF INTENT TO DEVELOP: HIA REQUIRED

in terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999) and the Western Cape Provincial Gazette 6061, Notice 298 of 2003

NOTIFICATION OF INTENT TO DEVELOP: PROPOSED SAND AND CALCITE MINE ON THE REMAINDER OF FARM LANGEBERG 188, VREDENBURG DISTRICT, SALDANHA BAY, SUBMITTED IN TERMS OF SECTION 38(8) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999)

CASE NUMBER: 17102102AS1161E

The matter above has reference.

Heritage Western Cape is in receipt of your application for the above matter received on 01 November 2017. This matter was discussed at the Heritage Officers meeting held on 20 November 2017.

You are hereby notified that, since there is reason to believe that the proposed development will impact on heritage resources, HWC requires that a Heritage Impact Assessment (HIA) that satisfies the provisions of section 38(3) of the NHRA be submitted. This HIA must have specific reference to the following:

- Impacts to archaeological heritage resources
- Impacts to palaeontological heritage resources

The required HIA must have an integrated set of recommendations.

The comments of relevant registered conservation bodies and the relevant Municipality must be requested and included in the HIA where provided. Proof of these requests must be supplied.

Please note, should you require the HIA to be submitted as a Phased HIA, a written request must be submitted to HWC prior to submission. HWC reserves the right to determine whether a phased HIA is acceptable on a case by case basis.

HWC reserves the right to request additional information as required.

Should you have any further queries, please contact the official above and quote the case number.

Yours faithfully

Mr. Mxolisi Dlamuka
Chief Executive Officer, Heritage Western Cape
