Includes the following documents:

Notification

Authorities and interested & affected parties
- Letter to the authorities dated 10 May 2018
- Letter to the interested & affected parties (I&APs) dated 10 May 2018
- E-mail notice sent to authorities on 9 May 2018
- E-mail notice sent to the I&APs on 9 May 2018
- Proof letter posted to the Ward Councillor on 9 May 2018

Newspaper notice
- Notice placed in the Weslander of 10 May 2018

Site notice
- Photographs of site notice placed on 9 May 2018

Information provided to interested and affected parties
- Notice
- Background Information Document (BID)

Landowner consent
- Consent dated 30 April 2018 from the land owner (Rietfontein Sheep Farm (Pty) Ltd)

Correspondence from neighbours and other interested & affected parties
- None received

Correspondence from Authorities
- Final response (dated 8 June 2018) from Heritage Western Cape

Register of Interested and Affected Parties
1 INTRODUCTION
This Public Participation Report has been compiled for an application for a mining permit in terms of the Mineral and Petroleum Resources Development Act (Act No.28 of 2004) (“MRPDA”) as well as for an application for environmental authorisation in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) (“NEMA”).

Amathemba Environmental Management Consulting CC has been appointed by Tip Trans Resources (Pty) Ltd to conduct the required public participation process for the NEMA process.

The applications for a mining permit and environmental authorisation were submitted on 8 May 2018. The section 27 application for a mining permit was accepted by the Department of Mineral Resources (DMR) on 16 May 2018. The DMR also acknowledged receipt of the application for environmental authorisation in terms of NEMA on 16 May 2018.

This public participation process has been conducted to comply with all relevant requirements as described in Regulations 39 to 44 of the 2014, EIA Regulations (as amended).

This report includes a description of the process used to notify interested and affected parties, and the comments received from interested and affected parties.

Copies of notices and relevant correspondence are included in Annexure A.

2 NOTIFICATION
The landowner (Mr H Steenkamp of Rietfontein Sheep Farm (Pty) Ltd) provided written consent for the applications and the proposed activities on 30 April 2018.

Notices and a Background Information Document (BID) were e-mailed on 9 May 2018 to the authorities, the landowner and neighbours as well as to the Cape West Coast Biosphere Reserve.

A hard copy of the notice and BID was posted to the Ward Councillor on 9 May 2018.

A bilingual notice (English and Afrikaans) was placed in the Weslander of 10 May 2018.

A site notice was placed at the entrance to the site on 9 May 2018.
3 ISSUES AND CONCERNS RAISED

All relevant documentation related to the public participation process including the register of interested and affected parties and all written comments received are attached to this report in Annexure A.

The issues and concerns that have been raised during the public participation process to date as well as the responses to these issues are summarised in Table 1, below.

Table 1: Comments – response summary table

4 CONCLUSIONS

It is concluded that:

- Tip Trans Resources (Pty) Ltd has complied with the requirements of Regulation 41 of the EIA Regulations, 2014 (as amended);
- All additional comments which are received during the 30 day consultation period required for the Basic Assessment Report and EMPr will be submitted to the Competent Authority.

Dear Authorities,

Proposed application for a mining permit on the Remainder of the farm Schouwstoneel 94, Vredenburg District - DMR Ref: WC30/5/1/3/2/ 10173MP.

The purpose of this e-mail is to notify you about a proposed application for a mining permit and environmental authorisation by Tip Trans Resources (Pty) Ltd on Remainder of the farm Schouwstoneel 94, Vredenburg District.

In terms of the 2014 EIA Regulations (as amended) you have automatically been registered as an interested and affected party and will be provided with a 30 day period to comment on the Basic Assessment Report once it is available.

Attached is the notice and a copy of the Background Information Document.

If you have any initial comments I would appreciate it if you could send them to me on or before 11 June 2018.

Attached:
- Notice
- Background Information Document

Yours faithfully,

Barry Wiesner

This Background Information Document (BID) has been prepared as part of the public participation process required by the Environmental Impact Assessment Regulations, 2014 which were published in terms of the National Environmental Management Act, 1998 Act 107 of 1998) (“NEMA”).

**Applicant:** Tip Trans Resources (Pty) Ltd

**Location:** The site is located some 7.6 km north-east of Vredenburg, more than 500m south of the Vredenburg – Velddrif Road (R399).

**Description of the listed activity:**

<table>
<thead>
<tr>
<th>Listing Notice</th>
<th>Activity no.</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>LN1</td>
<td>21</td>
<td>Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the MPRDA, including - (a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource, or (b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing.</td>
</tr>
<tr>
<td>LN1</td>
<td>22</td>
<td>The decommissioning of any activity requiring - (i) a closure certificate in terms of section 43 of the MPRDA; or (ii) a mining permit where the throughput of the activity has reduced by 90% or more over a period of 5 years excluding where the competent authority has in writing agreed that such reduction in throughput does not constitute closure.</td>
</tr>
<tr>
<td>LN1</td>
<td>28</td>
<td>Commercial or industrial developments where such land was used for agriculture on or after 01 April 1998 and where such development: (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare.</td>
</tr>
</tbody>
</table>

**Environmental Impact Assessment Process:**
Basic assessment must be applied to this application and therefore a basic assessment report, inclusive of specialist reports and an Environmental Management Programme, which has been subjected to a public participation process of at least 30 days, must be submitted to the Competent Authority (i.e. the Department of Mineral Resources or “DMR”).

**Extent and duration of the activities:**
The proposed mining permit area is 5.0 hectares in size. The site is situated on transformed land on the Remainder of the farm Schouwtroneel 94 in the Vredenburg Magisterial District. The land is currently used for crop production (wheat farming).

The maximum estimated duration of the proposed mining activities is 5 years, although it could be less than this depending on the demand for the material.

**Background & proposed mining method:**
Tip Trans Resources (Pty) Ltd proposes to obtain a mining permit for sand and for weathered calcrete. Good quality building sand that can be used for construction projects is present within the proposed mining permit area. There is also some weathered calcrete that can be used as G5 or G6 material for road construction projects. The calcrete would be a secondary product.

The site is located in transformed farm land (see Figure 2).

The proposed mining sequence is as follows:
- The mining permit area will be divided into 5 mining blocks. Each mining block is approximately 1 hectares in size.
- Only one block at a time will be mined.
- Overburden clearing and stockpiling of topsoil.
- Loading of sand and weathered calcrete into trucks using an excavator.
- The average estimated depth of the proposed excavation is approximately 2 metres below surface.
- Recording volumes in trucks
- Final rehabilitation of slopes to not more than 1:3. Levelling the final floor, replacing topsoil, stabilising the soil surface and rehabilitating the area so that it can continue to be used for agricultural purposes.

A locality map and a site plan are shown in Figures 1 and 2.

**Potential environmental impacts of the proposed mining activities:**
Potential environmental impacts associated with the proposed mining activities are listed in the following table:

<table>
<thead>
<tr>
<th>Aspect</th>
<th>Potential Impacts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Biodiversity</td>
<td>The proposed mining permit area is situated on transformed farm land and will have no impact on natural vegetation. Smaller animals will move away when mining operations are in progress.</td>
</tr>
<tr>
<td>Water resources</td>
<td>The proposed mine will have no significant impact on surface water or ground water. Care will be needed to prevent any hydrocarbon spills in the proposed mining area.</td>
</tr>
<tr>
<td>Soil and agricultural potential</td>
<td>When the sand and weathered calcrete has been removed the area will be rehabilitated to that it can continue to be used for agricultural purposes (i.e. crop farming).</td>
</tr>
<tr>
<td>Aspect</td>
<td>Potential Impacts</td>
</tr>
<tr>
<td>------------------------------------</td>
<td>------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Noise and dust</td>
<td>An excavator will be used to excavate the material and to load trucks. Noise and dust impacts will be largely restricted to the site. The mine will operate during working hours only.</td>
</tr>
<tr>
<td>Socio-economic</td>
<td>The proposed mine will not have a negative impact on any agricultural activity on the property or of the surrounding farms. The mine will provide employment and the aim is to use the sand for various construction and development projects in the area. The weathered calcrete is a secondary product that can be used as G5 or G6 material.</td>
</tr>
<tr>
<td>Cultural and heritage resources</td>
<td>There are no old buildings located within the mining permit area. No significant impacts on heritage resources are anticipated.</td>
</tr>
</tbody>
</table>

**Specialist studies:**

At this stage it is anticipated that the following specialist studies may be required to assess the impacts of the proposed project:

**Heritage**  
A heritage specialist will be appointed to compile the required ‘Notice of Intent’ or NID that will be submitted to Heritage Western Cape.

**Agriculture**  
A soil scientist will be appointed to assess the impact of the project on the agricultural potential of the land.

**Invitation to Interested and Affected Parties:**
Contact the environmental assessment practitioner (EAP) if you require any further information about the application, the proposed activity or if you wish to register as an interested and affected party.

Interested and affected parties are invited to provide information as to how their interests (whether it be socio-economic, cultural, heritage or environmental) will be affected by the proposed small-scale mining project.

All registered interested and affected parties will be provided with an opportunity to comment on the Basic Assessment Report and Environmental Management Programme before these are submitted to the Competent Authority (i.e. the DMR).

**Contact details of the environmental consultant:**

Landowner consent

- Consent dated 30 April 2018 from the land owner (Rietfontein Sheep Farm (Pty) Ltd)
Rietfontein Sheep Farm (Pty) Ltd
PO Box 88
Vredenburg
7380

Company Registration Number: 1963/002940/07

RESOLUTION PASSED AT A MEETING OF THE DIRECTORS OF RIEFTONTEIN SHEEP FARM (PTY) LTD

HELD AT: Vredenburg

ON THE: 30th April 2018

IT WAS RECORDED THAT:

- Rietfontein Sheep Farm (Pty) Ltd is the registered owner of the Remainder of the farm Schouwstoneel 94, Malmesbury Registration Division (held under Title Deed No: T18290/1963).

- Rietfontein Sheep Farm (Pty) Ltd is aware that Tip Trans Resources (Pty) Ltd plans to submit an application to the Department of Mineral Resources (DMR) for a mining permit over a five hectare area on the Remainder of the farm Schouwstoneel 94.

IT WAS THEREFORE RESOLVED THAT:

- Rietfontein Sheep Farm (Pty) Ltd provides consent to Tip Trans Resources (Pty) Ltd to submit an application for a mining permit to the Department of Mineral Resources (DMR) and to apply for any other regulatory consent or permission required for the proposed mining operation.

Hendrik Schalk Conradie Steenkamp (Director)
Correspondence from Authorities

- Final response (dated 8 June 2018) from Heritage Western Cape.
RESPONSE TO NOTIFICATION OF INTENT TO DEVELOP: FINAL
In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999) and the Western Cape Provincial Gazette 6061, Notice 298 of 2003

NOTIFICATION OF INTENT TO DEVELOP: FOR MINING OF SAND AND WEATHERED CALCRETE, FARM SCHOUWSTONEEL, OFF R399, SALDANHA, VREDENBERG SUBMITTED IN TERMS OF SECTION 38(8) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999)

CASE NUMBER: 180514035B0522E

The matter above has reference.

Heritage Western Cape is in receipt of your application for the above matter received on 22 May 2018.

You are hereby notified that, since there is no reason to believe that the proposed for mining of sand and weathered calcrete, farm Schouwstoneel on heritage resources, no further action under Section 38 of the National Heritage Resources Act (Act 25 of 1999) is required.

However, should any heritage resources, including evidence of graves and human burials, archaeological material and palaeontological material be discovered during the execution of the activities above, all works must be stopped immediately and Heritage Western Cape must be notified without delay.

This letter does not exonerate the applicant from obtaining any necessary approval from any other applicable statutory authority.

HWC reserves the right to request additional information as required.

Should you have any further queries, please contact the official above and quote the case number.

Yours faithfully,

[Signature]
